

HELLO:

Invitation to a Pre-Construction Community Information Centre

Power South Nepean

As South Nepean grows, so does the demand for electricity. Earlier this year, Hydro Ottawa and Hydro One completed a Class Environmental Assessment (EA) for a new municipal transformer station (MTS) and a new 230 kilovolt (kV) transmission line. The new Hydro Ottawa MTS will be located on Cambrian Road, west of the Highway 416 and will connect to the existing Hydro One transmission line between Cambrian Road and West Hunt Club Road. The existing transmission line is 115kV and will be upgraded to 230kV.

In advance of construction, we will be hosting a pre-construction community information centre. The purpose of this session is to engage with the community and provide information about the proposed construction schedule, construction activities and what residents can expect.

We look forward to seeing you on :

Thursday, September 19, 2019

6:00 p.m. – 8:00 p.m.

St. Patrick's Parish

15 Steeple Hill Crescent, Nepean

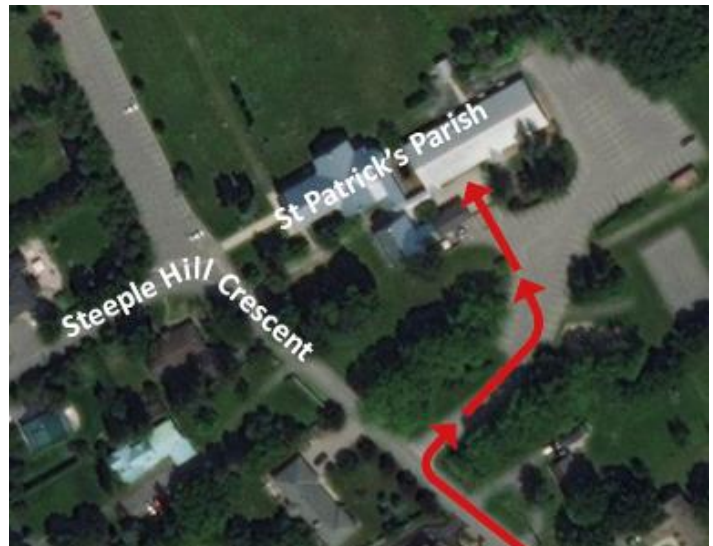

(Hall is located behind the parish, accessible via a road south of the parish – see map)
