

POWER SOUTH NEPEAN

Notice of Completion Draft Environmental Study Report

Hydro Ottawa Limited (Hydro Ottawa) and Hydro One Networks Inc. (Hydro One) have completed a draft Environmental Study Report (ESR) for the proposed Power South Nepean project. The purpose of the undertaking is to ensure an adequate and reliable supply of power to meet the growing electricity needs of South Nepean. The proposed project consists of a new Hydro Ottawa municipal transformer station (MTS) and a new 230 kilovolt (kV) transmission line to connect the MTS to Hydro One's existing 230 kV transmission system at West Hunt Club Road. To achieve the connection, Hydro One is proposing to upgrade its existing single circuit 115 kV transmission line to a double circuit 230 kV transmission line within the existing corridor from West Hunt Club Road to Cambrian Road, and to construct a new 230 kV transmission line along Cambrian Road to the new MTS, west of Highway 416.

The project need was identified in the Integrated Regional Resource Plan (IRRP) for the Ottawa area, developed by the Independent Electricity System Operator (IESO), Hydro Ottawa and Hydro One. This project is subject to the provincial Environmental Assessment Act and is being planned in accordance with the approved Class Environmental Assessment for Minor Transmission Facilities (Class EA) process. Subject to the outcome of the Class EA construction may begin as early as fall 2019.

HOW TO PROVIDE YOUR INPUT

In accordance with the Class EA process, Hydro Ottawa and Hydro One are providing notice of their intent to proceed with the project. The draft ESR will be available for a 45 day public review and comment period from March 13, 2019 to April 26, 2019. The draft ESR can be viewed on the project website at powersouthnepean.com or in hard copy at the following locations:

Hydro Ottawa and Hydro One will respond to, and make best efforts to, resolve any issues raised during the review period. If no issues are raised during the review period, Hydro Ottawa and Hydro One will finalize the ESR and file it with the Ministry of the Environment, Conservation and Parks (MECP). The project will be considered acceptable and may proceed as outlined in the ESR.

The Environmental Assessment Act has provisions for interested parties to ask for a higher level of assessment if they feel that outstanding issues have not been adequately addressed. This request is called a Part II Order request. Such requests must be addressed in writing using the MECP's standard Part II Order Request Form. The standard Part II Order Request Form is available on the Ontario Government Forms Repository website (<http://www.forms.ssb.gov.on.ca/>) and you can find it by searching "Part II Order" on the Repository's main page. A copy must be sent to the Minister of Environment, Conservation and Parks, as well as to the Director of the Environmental Assessment and Permissions Branch, and received no later than 4:30 p.m. on April 26, 2019 at the following addresses:

Minister
Ministry of the Environment, Conservation and Parks
77 Wellesley Street West
11th Floor, Ferguson Block
Toronto, ON M7A 2T5
Email: Minister.mecp@ontario.ca

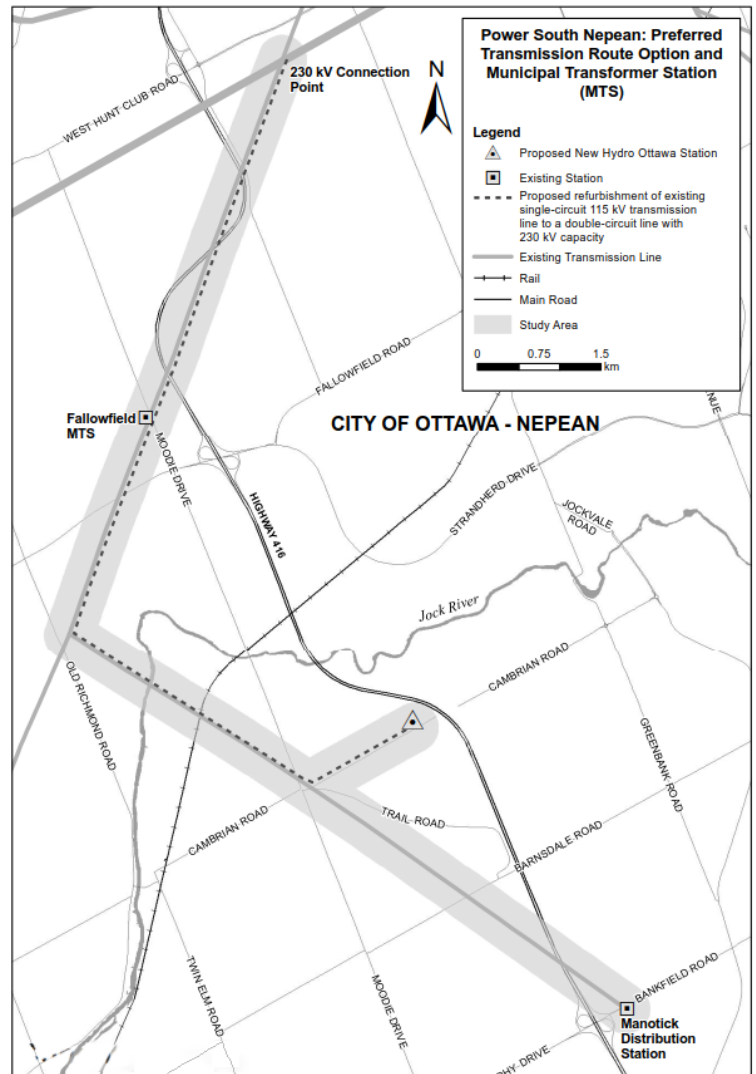

Please note that a duplicate copy of a Part II Order request must also be sent to Hydro Ottawa and/or Hydro One at the previously noted addresses.
